Want the city to pick up your garbage? The city has had problems making pick-ups on trash and recycling days (usually Wednesdays and Fridays) because of landscapers' trucks which have pulled up in front of the containers, blocking access. Starting Monday, vendors will receive a flyer at the gate, advising them that if there is a problem, the city can assess a fine against them. In the meanwhile, try to find a moment to talk with your gardeners about this. Let them know that blocking garbage cans is against Scottsdale ordinances and you expect them to obey the law.
