

## Stonegate Email News of 10-12-07

**The tennis winter schedule** begins Tuesday, October 15. Tennis reservation times more half an hour later, to 7:30AM, 9AM, 10:30AM, 12PM, 1:30PM, 3PM ... etc.

**The end of triple digit temperatures** marks a major shift in lifestyle for most of us. People and pets can enjoy the outdoors more. At night, open windows bring in the fresh air and, much too often, the sound of a barking dog from several houses down. If you're a dog owner, you know that dogs bark at passers by and there are more of them now. At night, if you leave the dogs out while you go to dinner, they're very likely to bark and annoy the neighbors. Dog ownership in Stonegate is always a management problem – managing the dog's needs, your own convenience and the need to be a good neighbor. That last item can never be discounted.

**So, you need a dog walker?** Channel 22 has ads from several Stonegate children who'd like to give little Muffy some exercise. The ads are free to all Stonegate kids – with their parents' permission, of course. The kids can use the Channel 22 classified ad form available on the Stonegate website. Or call Nora at (480) 391-9760.
