

# Stonegate Email News of 10-30-07

## How to Have a Happy Halloween:

- ▶ **After 5PM, all residents should use east gate to enter and exit.** Traffic at main gate will be very heavy and gate staff will be admitting visitors through all lanes, from 5PM until about 10PM. That means there will not be a residents-only lane at main gate during those hours.
- ▶ **Safeguard will have extra people working the main gate.** From time to time during the evening, there will be delays. It might not be a bad idea to mention that to your guests. Halloween is a very difficult assignment for our gate staff. Patience and good manners will be much appreciated.
- ▶ **Retreat gate will be closed at 5PM.** No entry, no exit, no exceptions.
- ▶ **Police officers will patrol the community,** especially Retreat.
- ▶ **Trick or Treat hours start at 4PM.** And in case you were wondering, sunset is at 5:38PM.
- ▶ **Please finish Trick-or-Treating by 9PM.** And if the light is not on, please don't ring the bell.
- ▶ **Curfew for teens is 10PM.** That will be enforced. Officers will ask the children to return home at 9PM. It's a school night. They really should not be out late.
- ▶ **Giving a party? The gate needs an alphabetized guest list.** QuickPass is the best way to convey your guest list to the gate. That way our gate staff doesn't have to key your guest list into the system. If you do your guest list on paper, please deliver it to the gate a few days in advance so they'll have time to process the information.

## Big QuickPass hints:

- (1) If your party starts at 7PM, specify 6PM or earlier. The info becomes available to the gate staff at the time you specify, not one single minute earlier. Some people may come early.
- (2) Include the people who didn't RSVP. No big deal if they don't show up. But if you omit them and they do show up, the gate will have to try to phone you, which slows the line.

## **If you're planning to email Jan Dolan and our city council members:**

A resident reported having trouble getting all the names into his outlook address line. Below is an easy solution. Just block copy it in:
