If I don't use the spa, why do I care that it's down?

The reason for the closure is the important part.

Last Sunday evening, someone held a beer bash in the spa. The partiers consumed cases of Corona and Heineken, as well as several bottles of wine. And someone broke a beer bottle.

Now we must drain the spa and dry it so we can be sure of removing every shard of broken glass.

We don't know who these heavy drinkers were, or whether they were adults. We do know that accidents happen, probably more often when there's a lot of alcohol being consumed.

A sign by the pool says no glass is allowed in the area. It also specifies no eating or drinking in the pool or spa. The glass rule applies throughout the hard-surfaced pool area. And this is exactly why.

Please, please don't bring glass bottles to the pool area.

If the Association can identify the culprit(s), they'll be fined. The spa should be back up by Wednesday evening.
