

Stonegate Email News of Thursday, October 09, 2008

Please padlock your fuse box. We had another incident a few days ago. We believe that the culprits were teens in a white pick-up truck. They shut off power at several houses in Regent. A small padlock on your fuse box will protect you against this sort of malicious mischief.

New digital cameras are now being installed at the gate. They are part of a system upgrade which includes DVRs to monitor video and audio. In addition, digital surveillance cameras are now being placed which will allow the gate to monitor the recreational area.

Got an ID card? Please have it with you when you use the recreational amenities. ID cards are issued for adults, and children 12 and over. If you don't have one, call Nora at (480) 391-9760 to make an appointment.

The Community Association has completed its overseeding. Have you? Stonegate requires a successful winter grass transition for your front yard turf areas. Now is the best time. So call your gardener and make sure you're on the list.

Crack sealing will begin soon, probably next week. The nature of the work will impose few inconveniences and those will be brief. Pavement maintenance is an essential function of the Association. Stonegate owns its own streets and good maintenance protects this enormous investment.

Fall flowers arrive next week. The common areas will enjoy an infusion of color from blood red and pink geraniums and trailing purple petunias.

The winter tennis schedule starts Thursday, October 16. First tennis time will be 7:30AM and all times will move half an hour later.
