

## **Stonegate Email News of 4-30-09 – Special Edition.**

### **Stonegate Needs You!**

Two standing committees are just starting up and need members. Meeting days and times will be set by the committee members when the groups are formed.

An application is attached. It's good for either of these committees, or any of the existing standing committees. Or just call Nora at (480) 391-9760 (ext.14).

- **Conservation Committee.** Now that the Age of Green is upon us, we must deal with a growing list of legislative, financial and technical concerns pertaining to conservation issues. The Board wants a committee which can be charged with studying them. If you're the person who always reads the latest newspaper article about solar power, you're the one we want. Former board president Lee Secrest will chair this committee.
  
- **PR/Public Information Committee.** (Exact name to be decided by the members.) The last time you heard HOA issues addressed in the media, it was most likely a horror story about the heartless management company that's trying to kick granny out of her home. Or the financially clueless board that just hit up the members with an enormous special assessment. Stonegate doesn't do that. Board member Dr. Don Levitt wants to offset the negativity with a positive HOA story – Stonegate's story. He needs a team of creative, activist residents. Does that sound like you?
